

FIG. 1

100

FIG. 2 is a diagram illustrating the structure of a frame in a communication system. The frame is divided into several sections: a BCCH (Broadcast Control Channel) section, a SUPERFRAME section, and an HSD (High Speed Downlink) section. The BCCH section is further divided into a VOICE section and a DATA section. The HSD section is further divided into a VOICE section and a DATA section. The frame is shown in a perspective view, with the BCCH section at the top and the HSD section at the bottom. The frame is divided into sections of 400 ms, 80 ms, 40 ms, 20 ms, and 1.25 ms. The BCCH section is labeled 'BCCH' and the HSD section is labeled 'HSD FRAMES'. The VOICE section is labeled 'VOICE' and the DATA section is labeled 'DATA'.
